FREQUENTLY ASKED QUESTIONS

How do I know if I need a single-line or a multi-line service?

Single-line phones are just like most household phones. They can be used for fax lines, credit card machines, standard telephones, and even to dial-up internet service (although we do not recommend this method of internet connectivity). A Multi-Line Service (Digital) includes one phone number with multiple line appearances and rental of one digital display phone.

I have a wired credit card machine. Do I need to program anything specific for the machine to work on your single-line service?

Yes. Please preprogram your machine to dial "9" before your credit card company's number.

How do I receive my phone number, dialing instructions, and phone/fax equipment?

Please visit the MCCA Exhibitor Services desk onsite to pick up your equipment. At this time you will receive assigned phone numbers and dialing instructions. This information can also be provided ahead of time if requested through Exhibitor Services.

How can I place international calls on my phone line?

If you wish to place international calls on your phone line, please contact Exhibitor Services prior to move-in to submit this request. Otherwise, all phones will be limited to local and US numbers.
